## Choices That Will Affect Your Loan

- **Mortgage term.** Mortgages are generally available at 15-, 20-, or 30-year terms. The longer the term, the lower the monthly payment if the same amount is borrowed. However, you pay more interest overall if you borrow for a longer term.
- **Fixed or adjustable interest rates.** A fixed rate allows you to lock in a low rate for as long as you hold the mortgage and is usually a good choice if interest rates are low. An adjustable-rate mortgage (ARM) is designed so that interest rates will rise as interest rates increase; however they usually offer a lower rate in the first years of the mortgage. ARMs also usually have a limit as to how much the interest rate can be increased and how frequently they can be raised. ARMs are a good choice when interest rates are high or when you expect your income to grow significantly in the coming years.
- **Balloon mortgages.** Balloon mortgages offer very low interest rates for a short period of time—often three to seven years. Payments usually cover only the interest, so the principal owed is not reduced. However, this type of loan may be a good choice if you think you will sell your home in a few years.
- **Government-backed loans.** Government-backed loans, sponsored by agencies such as the Federal Housing Administration ([www.fha.gov](http://www.fha.gov)) or the U.S. Department of Veterans Affairs ([www.va.gov](http://www.va.gov)), offer special terms, including lower downpayments or reduced interest rates—to qualified buyers.
